**Farnam® SimpliFly® Feed-Thru Fly Control** is a highly palatable feed additive to prevent the development of stable flies and house flies in the manure of treated horses. **Farnam® SimpliFly® Feed-Thru Fly Control** breaks the fly life cycle by preventing the formation of fly larvae exoskeletons when they molt (resulting in their death). This product contains no organophosphates and can be used as part of an integrated pest management program. **Farnam® SimpliFly® Feed-Thru Fly Control** is a reduced risk pesticide.

**READ ENTIRE LABEL BEFORE EACH USE**

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DO NOT USE ON HORSES INTENDED FOR SLAUGHTER**

Feed the recommended dosage of **Farnam® SimpliFly® Feed-Thru Fly Control** to each horse separately to make certain it receives the full ration. This product should be fed top dressed on grain or mixed with the horse’s total ration to provide 6.8 mg of diflubenzuron per 100 lbs. of body weight. For occasional finicky eaters who do not accept new feeds readily, mix this product with sweet feed or grain ration.

Start feeding **Farnam® SimpliFly® Feed-Thru Fly Control** early in spring before flies appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity.

This product contains diflubenzuron, an insect growth regulator, which prevents the development of house flies and stable flies in the manure of treated horses, but is not effective against existing adult flies.

In some cases, supplemental fly control measures may be needed in and around paddocks and buildings to control adult house and stable flies which can breed in other decaying vegetable matter or silage on premises, or migrate in from other areas.

**Farnam® SimpliFly® Feed-Thru Fly Control** should be used as part of an integrated pest management program aimed at reducing fly populations in the horse’s environment. Consult your retailer for program recommendations. In order to achieve optimum fly control, this product should be used in conjunction with other premises and on-animal products as well as good management and sanitation practices.

**FEED INGREDIENTS:** Wheat Middlings, Dehydrated Alfalfa Meal, Calcium Carbonate, Sodium Chloride, Calcium Propionate (preservative)

**DAILY DOSAGE**

<table>
<thead>
<tr>
<th>Weight Range</th>
<th>Dosage</th>
</tr>
</thead>
<tbody>
<tr>
<td>300-500 LBS.</td>
<td>Feed ½ oz. per horse per day.</td>
</tr>
<tr>
<td>500-700 LBS.</td>
<td>Feed ½ oz. per horse per day.</td>
</tr>
<tr>
<td>700-900 LBS.</td>
<td>Feed ½ oz. per horse per day.</td>
</tr>
<tr>
<td>900-1100 LBS.</td>
<td>Feed 1 oz. per horse per day.</td>
</tr>
<tr>
<td>1100-1300 LBS.</td>
<td>Feed 1 ¼ oz. per horse per day.</td>
</tr>
</tbody>
</table>

For larger horses over 1,300 lbs. of body weight, feed an additional ½ oz. for each additional 200 lbs. of body weight.

---

**STORAGE & DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in original container in a cool dry place inaccessible to children and pets.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Completely empty plastic bucket by shaking and tapping sides and bottom to loosen clinging particles. Then offer for recycling if available or dispose of in a sanitary landfill or by incineration or if allowed by state and local authorities by burning. If burned, stay out of smoke.
