Bringing you closer to your horse™

Whether it's a soothing bath or an invigorating liniment rubdown, its distinctive menthol fragrance enriches your relationship with your horse. The Vetrolin® brand offers a complete line of grooming products made to deliver professional results.

Clean & Condition

Bathing

- Pour Vetrolin® Bath in a bucket and add warm water. Use a sponge or curry to work shampoo deep down to the skin. Use circular motions to deep clean the coat and stimulate circulation.
- Wash the tail by dunking it in a bucket. Work the soap in gently with your hands. Use the tail ends to suds the entire tail. Don't scrub too hard — it can break off hairs.
- Scrub the tail down to the roots. Lingering dirt becomes obvious if you braid your horse's tail for a show.
- Rinse your horse thoroughly. Soap residue can cause irritation.
- When you're short on time, bathe your horse with Vetrolin® Body Wash. One-step shampoo applicator attaches to the hose to get deep down to the skin and blast out the dirt and sweat in just minutes!
- After you've bathed your horse, clean your brushes by soaking them in the sudsy water for a few minutes. A clean brush helps keep your horse cleaner longer.

Grooming Tip:

Vetrolin® Bath Is Concentrated.

Just 2–4 oz. of product cleans your entire horse. Use less, save more, same great results.

Remove Stains

Cleaning Tough Stains

- For white and light-colored horses, mix Vetrolin® White 'N Brite™ shampoo with optical coat brighteners in a bucket of warm water. Sponge over entire body and leave on for 2–3 minutes. Rinse thoroughly.
- For stubborn stains, apply Vetrolin® White 'N Brite™ shampoo full-strength and let sit for 5 minutes before rinsing.
- For dark-colored coats, use Vetrolin® White 'N Brite™ shampoo as you would on light-colored horses to enhance highlights.
- For urine-stained tails, soak tail in a bucket with Vetrolin® White 'N Brite™ shampoo for 5 minutes. Gently scrub soap into the top of the tail and rinse.
- Use a spray-on dry-clean shampoo when it's too cold for baths. Apply a small amount of Vetrolin® Green Spot Out directly on the spot. Massage in and wipe off using a damp towel. Repeat until stain is removed. Finish off with a dry towel and brush to bring out the shine.

Detangle

Managing Unruly Hair

- Use Vetrolin® Detangler on wet or dry manes and tails to keep the hair tangle-free and more manageable. To minimize breakage, comb out tangled hair in small sections from the bottom up.
- Use a wide-toothed plastic comb on manes and tails, rather than a brush, to prevent hair breakage.
- Use Vetrolin® Shine on knotted manes and tails to cut grooming time in half and reduce hair breakage. Spray on the mane or tail and let sit for 3–5 minutes before detangling knots.

Grooming Tips:

Repel Stains

After shampooing the tail, spray it with Vetrolin® Shine to repel stains and cut down on tail washing.

Prevent Knots

Spray Vetrolin® Shine on the mane and tail before turning your horse out. The silicone prevents knots from forming and burrs from getting stuck in the hair, reducing the amount of product normally needed to detangle difficult knots.

Shine

A Good Shine Is the Finishing Touch

- After shampooing, towel-dry the coat, then liberally spray on Vetrolin® Shine. When coat is dry, brush or use a soft towel to bring out the luster. Vetrolin® Shine also repels dust and dirt to help keep your horse clean.

Repelling Stains

- Prevent stains and make mud removal easier by spraying your horse's body, mane, tail and legs with Vetrolin® Shine. Silicone in the spray coats the hair shaft, making it more difficult for stains to set and mud to harden.
- Spray your horse with Vetrolin® Shine before trailering to repel dust and dirt, keeping your horse's coat clean.

Soothe & Invigorate

- If your horse is prone to stocking up, rub Vetrolin® Liniment or Liniment Gel onto your horse's legs to help reduce swelling.
- Use Vetrolin® Liniment or Liniment Gel directly on sore muscles. Apply a small amount to sore areas and gently massage into the muscle. The counterirritant increases blood flow and stimulates circulation for a long-lasting heat sensation.

Refreshing Your Horse

- Use Vetrolin® Liniment as a body brace after strenuous workouts to prevent sore muscles. Mix Vetrolin® Liniment with warm water and sponge over legs and major muscle groups.
- On hot, humid days, mix Vetrolin® Liniment with water to help cool down your horse.

Grooming Tip:

Vetrolin® Liniment Is Concentrated.

It may be diluted with water for an economical, refreshing body brace your horse will love.

Vetrolin® Family of Grooming Products

Clean & Condition

Vetrolin® Bath

Premium-quality, high-sudsing shampoo contains protein-enriched conditioners, Vitamin E and PABA sunscreen to help protect the coat from harsh elements. Great for dogs too!

Vetrolin® Green Spot Out

Spray-on dry-clean shampoo removes stains easily. Works great when there's no time or the weather's too cold for bathing. Excellent spot cleaner for light-colored coats.

Vetrolin® Body Wash

Vetrolin® Bath formula in a one-step applicator that cleans without scrubbing. Eliminates buckets and sponges to make bathing easier after every ride.

Vetrolin® White 'N Brite™ Shampoo

Deep-cleaning, color-brightening shampoo brightens light-colored coats, enhances highlights on dark-colored coats and removes the worst yellow stains. Great for dogs too!

Detangle & Shine

Vetrolin® Detangler

Instant detangler and conditioner leaves manes and tails tangle-free with a healthy-looking shine.

Vetrolin® Shine Ready-to-Use Spray

Contains salon-quality silicone plus conditioners to put a brilliant shine on coats and detangle manes and tails. This trusted favorite won't make hair brittle and minimizes breakage.

Soothe & Invigorate

Vetrolin® Liniment Gel with Hyaluronic Acid

This gel formula contains counterirritants for a deep-penetrating warming sensation. Stimulates blood flow and provides instant relief for sore muscles and joints. Contains hyaluronic acid to nourish the coat.

Vetrolin® Liniment

Invigorating, aromatic liniment helps stimulate blood flow to relieve minor stiffness, soreness and inflammation. Makes a refreshing body brace.
